

Impart Lockdown Alert System Network Solution (iLAS-N)

The only remote-controlled Lockdown Alert System that covers campuses of any size!

Based on the successful range of **iLAS** lockdown sirens, the **iLAS-N** (Impart Lockdown Alert System - Networked version) delivers wireless inter-siren communications to ensure any one siren that is activated by an operator activates every other siren in the network. Now even the largest school, university, factory, warehouse or corporate campus can improve site security by delivering unique, loud, easily distinguished Lockdown, Evacuation and All Clear alerts at a lower cost than any other system available.

Activate Anywhere on Campus

iLAS-N is a completely wirelessly activated Lockdown and Alert solution, designed to cover campus sites such as very large high schools, universities, factories or warehouses. Like **iLAS**, it delivers unique siren sounds that are easily distinguished by people on the campus. But with its inter-siren repeater function, now any authorised user, even at one end of a campus site, can activate all sirens anywhere on the campus, using their wireless remote control.

Unique Alert Sounds

iLAS-N comes with three unique siren sounds: a Lockdown Siren, an Evacuation Siren and an All Clear Siren. Remote controls can be carried in a user's pocket, are simply labelled so that no training is required, and will activate any siren within 100-150 metres, which subsequently activate every other siren in the network to deliver the same siren sound.

Maximum Reliability

iLAS-N comes with a Three Year 'Return To Base' Product Warranty. It is made from vandal proof and weather proof parts and the sirens are the very same sirens that Impart Special Products have sold for use in thousands of emergency services vehicles in Australia for more than ten years.

Ease of Installation

iLAS-N controllers communicate with each other wirelessly, eliminating the need for inter-siren cabling, thereby greatly simplifying installation and reducing costs. Sirens and controllers can be wall or pole mounted, giving you the flexibility to install the system anywhere, thereby delivering the coverage you need. Any campus handyperson or qualified electrician can quickly scope out a site to select the best siren locations, connect each siren to 240VAC power, and commission the system. Operator familiarisation then takes only minutes.

iLAS-N System Specifications:

iLAS-N 1 Single Networked System

- 1x Dual Siren Base Station, 2 Speakers
- 3x Remote Controls, 4 Key Remote Legend Stickers
- 1x Emergency Procedure Wall Signs (pack of 10)

iLAS-N 2 Two Networked Systems

- 2x Dual Siren Base Station, 4 Speakers
- 3x Remote Controls, 4 Key Remote Legend Stickers
- 1x Emergency Procedure Wall Signs (pack of 10)

iLAS-N 3 Three Networked Systems

- 3x Dual Siren Base Station, 6 Speakers
- 3x Remote Controls, 4 Key Remote Legend Stickers
- 1x Emergency Procedure Wall Signs (pack of 10)

iLAS-N 4 Four Networked Systems

- 4x Dual Siren Base Station, 8 Speakers
- 3x Remote Controls, 4 Key Remote Legend Stickers
- 1x Emergency Procedure Wall Signs (pack of 10)

iLAS-N 5 Five Networked Systems

- 5x Dual Siren Base Station, 10 Speakers
- 3x Remote Controls, 4 Key Remote Legend Stickers
- 1x Emergency Procedure Wall Signs (pack of 10)

iLAS-N 6 Six Networked Systems

- 6x Dual Siren Base Station, 12 Speakers
- 3x Remote Controls, 4 Key Remote Legend Stickers
- 1x Emergency Procedure Wall Signs (pack of 10)

iLAS-N 7 Seven Networked Systems

- 7x Dual Siren Base Station, 14 Speakers
- 3x Remote Controls, 4 Key Remote Legend Stickers
- 1x Emergency Procedure Wall Signs (pack of 10)

iLAS-N 8 Eight Networked Systems

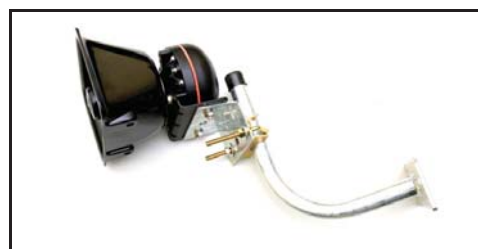

- 8x Dual Siren Base Station, 16 Speakers
- 3x Remote Controls, 4 Key Remote Legend Stickers
- 1x Emergency Procedure Wall Signs (pack of 10)

iLAS-N 9 Nine Networked Systems

- 9x Dual Siren Base Station, 18 Speakers
- 3x Remote Controls, 4 Key Remote Legend Stickers
- 1x Emergency Procedure Wall Signs (pack of 10)

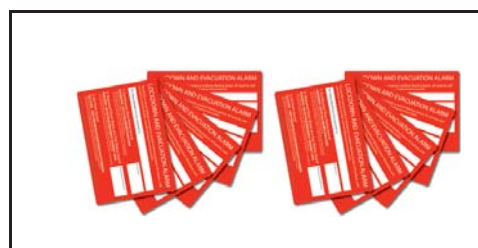

Steel Cabinet and Battery

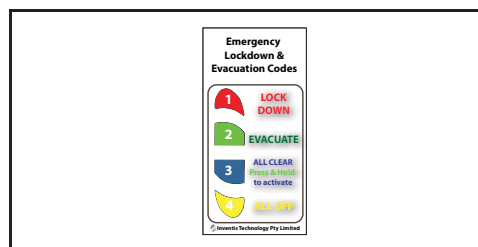

Siren and J-Mount

Remote Keyfob

A4 Wall Placards (pack of 10)

Remote Legend
